

Hire with Proof

PuzzleVerifies provides fast, FCRA-compliant background screening built into the HR department you already run with us.

One bad hire can cost a full year's salary. A negligent hiring claim costs more. Most screening tools hand you the results and leave FCRA compliance on your desk. Get it wrong and the lawsuit is yours, not the vendor's.

PuzzleVerifies closes that gap. You pick the searches. We run them, keep them compliant, and put the answers next to the onboarding and payroll we already handle for you.

What it Costs

Our Standard Package starts at \$54. It covers an SSN trace plus state, county, and national criminal searches, the baseline for most hires. Add anything else on top.

Service / Package	PuzzleVerifies Price
